

List of ongoing projects

S. No.	Title of the Project	Principal Investigator	Duration of the Project	Funding Agency	Project Status	Project Objectives	Research Findings
1	Evaluation of Stability of Soil Inorganic Carbon under Selected Forest Blocks of Rajasthan	Mr. Sharat Kothari, Scientist-B	April 2025 – March 2028	ICFRE	Ongoing	1. To assess the status of soil inorganic carbon content of selected forest blocks of Rajasthan and its implication on soil properties. 2. To study the impact of elevated temperature and precipitation on SIC stability under controlled condition 3. To study the effect of vegetation on inorganic and organic carbon pools	
2	Soil Test-Based Primary Nutrients (NPK) Recommendation for Some Important Tree Seedlings of Rajasthan	Mr. Sharat Kothari, Scientist-B	April 2025 – March 2028	ICFRE	Ongoing	1. To revisit the soil test ratings of primary nutrients (NPK) for tree seedlings for plantation purpose	

						2. To determine the nutrient requirement and recovery efficiency of primary nutrients in seedlings of some important tree species of Rajasthan 3. To recommend primary nutrients (NPK) prescription for of some important tree seedlings of Rajasthan	
4.
